

PATIENTS DESERVE TO KNOW SMOKING vs. VAPING

Vaping (aka "vaporizing") is a far healthier way to ingest cannabis, compared to smoking (aka "combusting"). To help patients choose the healthier alternative, Temescal Wellness sells a variety of industry leading vaporizers. Ask your Patient Treatment Advisor today!

PATIENTS DESERVE TO KNOW WHAT IS VAPORIZATION?

Vaporization delivers therapeutic cannabinoids with far less harmful carcinogens than in smoking. Also known as "vaping", it raises the temperature just high enough to release the therapeutic molecules of the cannabis plants (aka "cannabinoids"), but not so high that it unnecessarily releases other carcinogenic substances

BENEFITS OF VAPING:

LESS HARM ON LUNGS

FEWER HARMFUL TOXINS

FEWER SIDE EFFECTS

MORE EFFICIENT

Temescal Wellness will be serving qualifying patients in Baltimore for 2017
